7879e Scanner/Scale Bucket Insulator Tape

The 7879e Scanner/Scale Bucket Insulator Tape prevents the unit from ground loop related problems. This publication provides procedures for installing a 7879e Scanner/Scale Bucket Insulator Tape on an NCR FastLane SelfServ™ Checkout (7360) unit.

Note: This procedure only requires one (1) out of the twenty (20) Insulator Tapes. The rest of the Insulator Tapes serve as spare items.

Kit Contents

| Pat Number | Description |
|---------------|---|
| 497-0531893 | 7360-K007 Kit - 7879e Scanner Bucket Insulator, SSCO 7360 (110 V UPS) |
| 497-0531201 | Insulator, Scanner Bucket (20 pcs) |
| * 497-0423108 | Instructions-Kit (Reference Sheet) |

* Items marked with an asterisk are not called out on the image.

Installation Procedures

To install the Bucket Insulator Tape, follow these steps:

1. Turn off the NCR SelfServ Checkout software and hardware systems. For more information, refer to *NCR SelfServ™ Checkout (7360) Hardware Service Guide (B005–0000–2378)*.

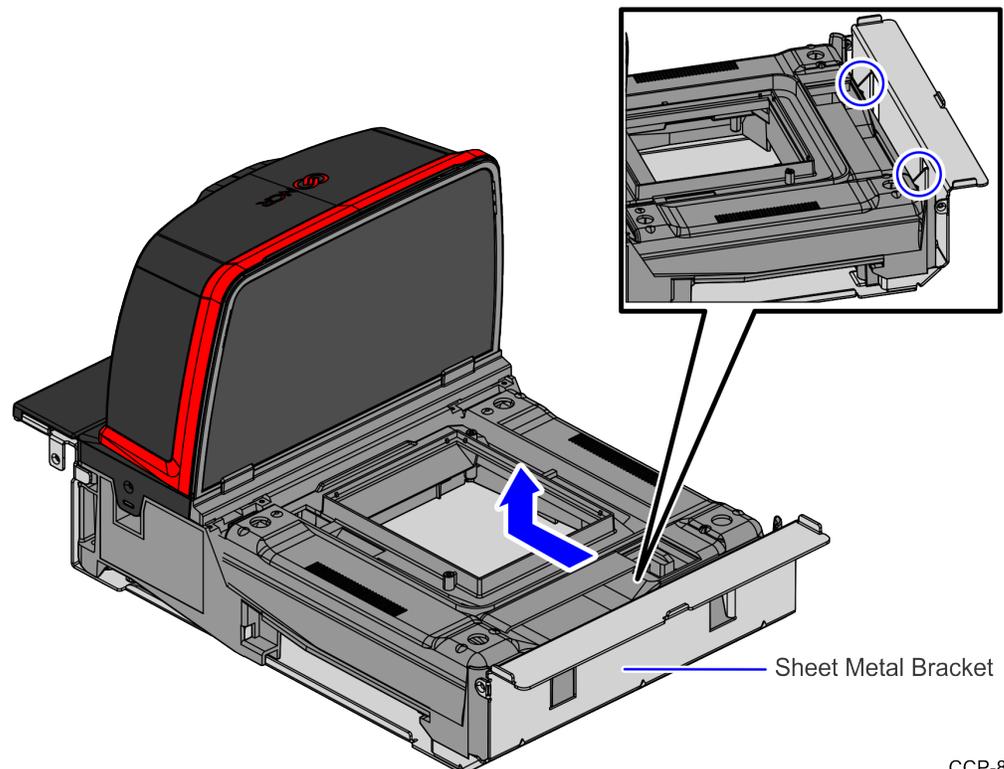

Note: Ensure to remove power from the Sensormatic® controller. This is a requirement before disconnecting and reconnecting the Sensormatic® antenna cable.

2. Open the Tower Frame. For more information, refer to [Opening the Tower Frame](#) on page 5.
3. Remove the Scanner/Scale. For more information, refer to [Removing the Scanner/Scale \(7879e\)](#) on page 6.
4. Place the removed Scanner/Scale assembly on a flat surface.

Note: Ensure that all cables are disconnected from the Scanner/Scale.

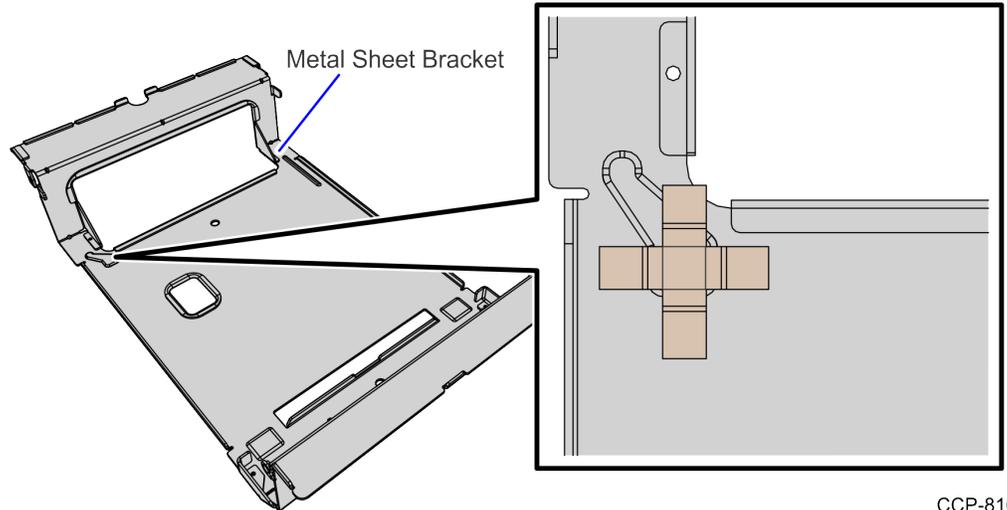

5. Remove the Scanner/Scale from the sheet metal bracket by doing the following:
 - a. Push the Scanner/Scale backwards to disengage it from the two (2) snap features of the sheet metal bracket.
 - b. Lift the Scanner/Scale out of the sheet metal bracket.

6. Attach the Insulator Tape by doing the following:
 - a. Remove the protective film from the back of the Insulator Tape.
 - b. Attach the Insulator Tape on the sheet metal bracket, shown in the image below:

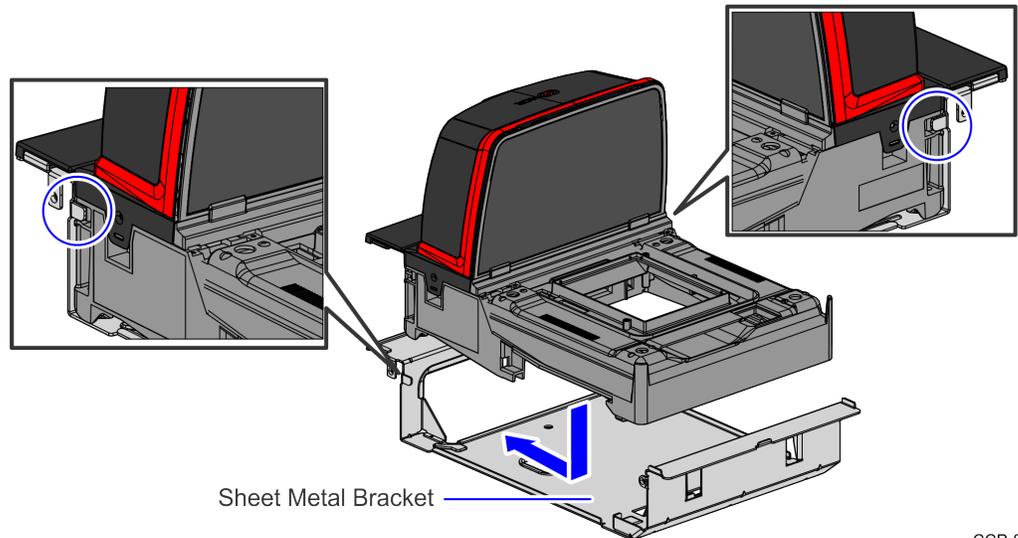

Note: Press down the Insulator Tape on the edges to ensure that the Insulator Tape covers the area shown.

CCP-81068

7. Do the following:
 - a. Align the Scanner/Scale on the sheet metal bracket and then slide it backwards.
-  **Note:** Ensure that the two (2) leads on both sides of the sheet metal bracket are aligned with the slots on the Scanner/Scale, as shown in the image below.

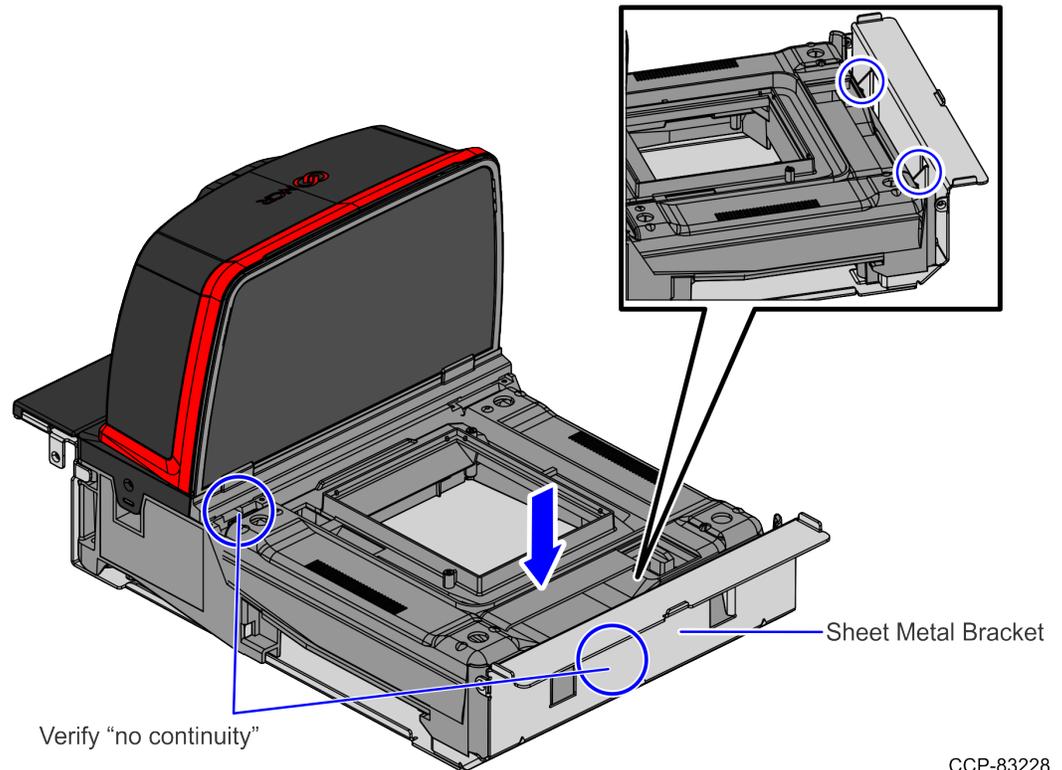

CCP-83227

- b. Push the Scanner/Scale down so that the two (2) snap features of the sheet metal bracket lock the Scanner/Scale in place.

Note: If a multimeter is available, verify "no continuity" between the ground clip point and the sheet metal bracket.

8. Install the Scanner/Scale. For more information, refer to [Installing the Scanner/Scale \(7879e\)](#) on page 8.

Note: Ensure that all Scanner/Scale and Electronic Article Surveillance (EAS) cables are connected.

9. Close the Tower Frame. For more information, refer to [Closing the Tower Frame](#) on page 11.
10. Turn on the NCR SelfServ Checkout software and hardware systems. The ADD/CADD window is displayed, showing available devices.

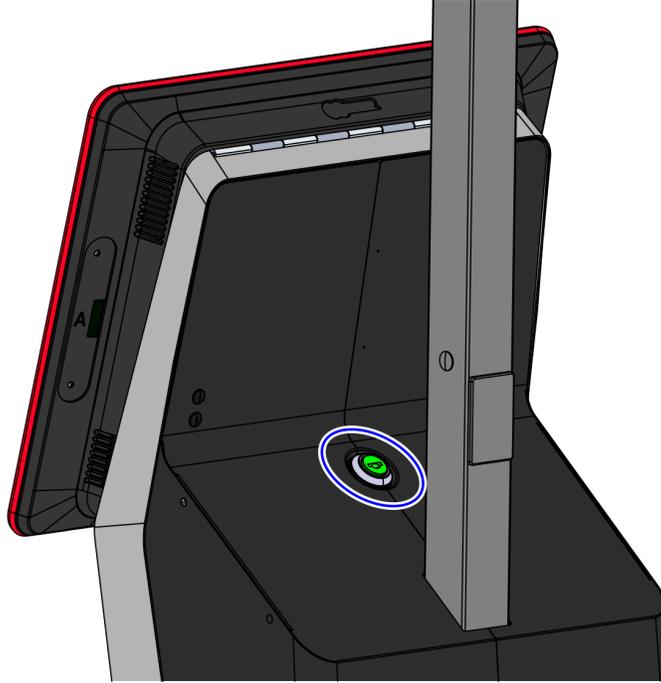

Note: The NCR FastLane SelfServ(TM) Checkout application automatically runs and installs all available devices. Do a functional test for the Scanner/Scale (7879e) and the Electronic Article Surveillance (EAS) system. For more information, refer to *NCR SelfServ™ Checkout (7360) Hardware Service Guide (B005-0000-2378)*.

Opening the Tower Frame

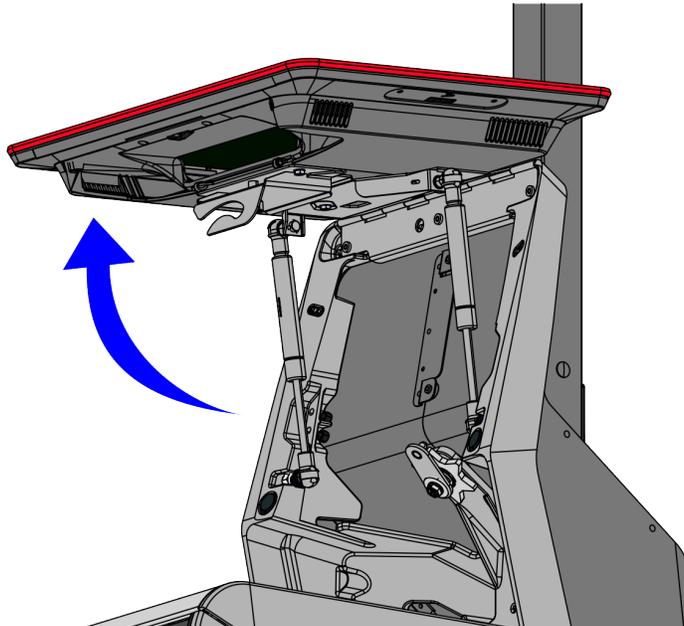

To open the Tower Frame, follow these steps:

1. Unlock the Tower Frame from the back panels using a key.

CCP-61622

2. Lift the Terminal Display from Tower Frame.

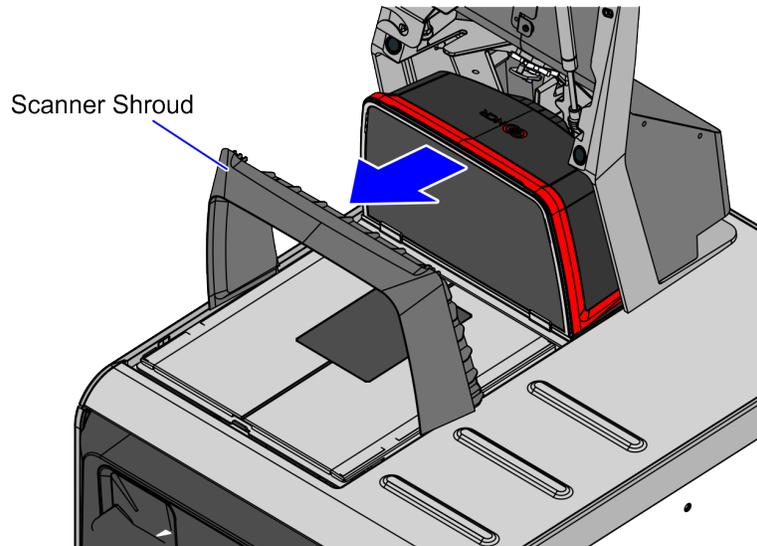

CCP-79659

Removing the Scanner/Scale (7879e)

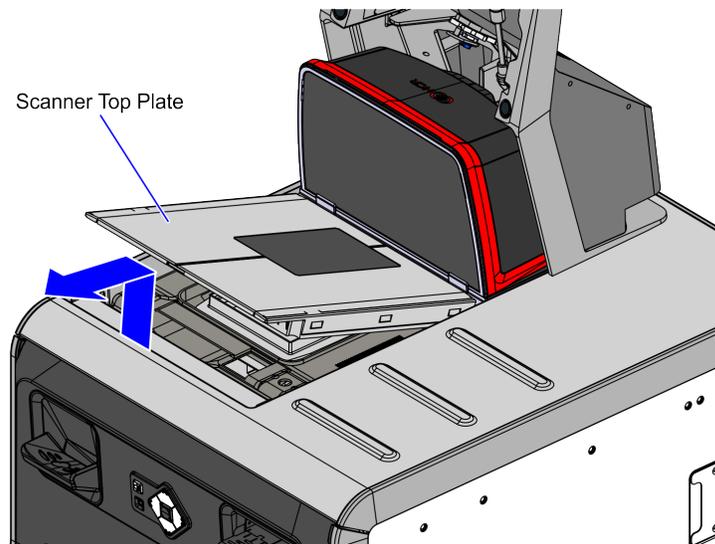

To remove the Scanner/Scale (7879e), follow these steps:

1. Remove the Scanner Shroud from the top of the vertical scanner window.

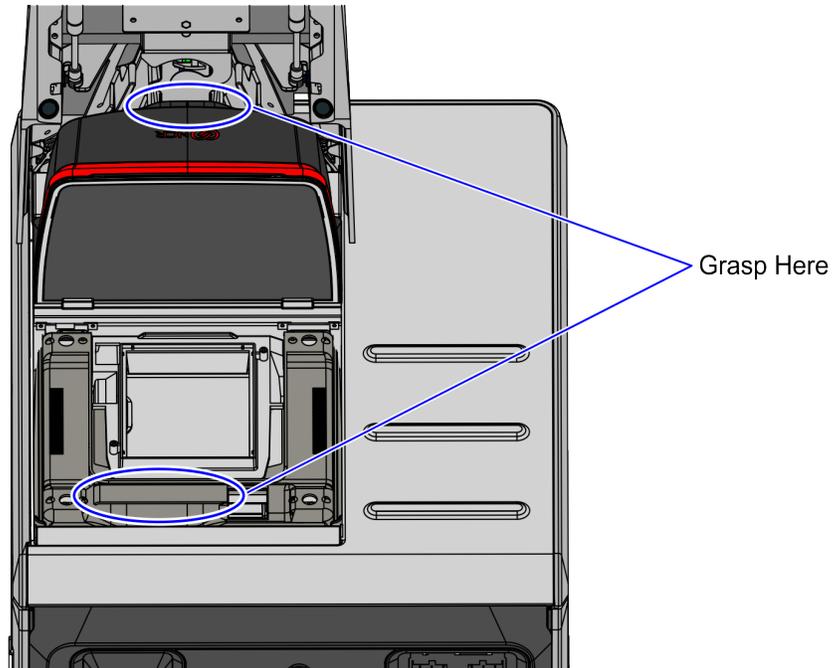

CCP-74813

2. Remove the Scanner Top Plate from the Scanner/Scale.

CCP-79671

3. Remove the Scanner/Scale by doing the following:
 - a. Grasp the front of the Scanner/Scale and lift up.
 - b. Grasp the back of the Scanner/Scale and slide it out of the bucket area.

CCP-61625

4. Disconnect the cables from the Scanner/Scale.

Tip: Mark all cables as to where they are connected to quickly determine the corresponding port when reconnecting the cables.

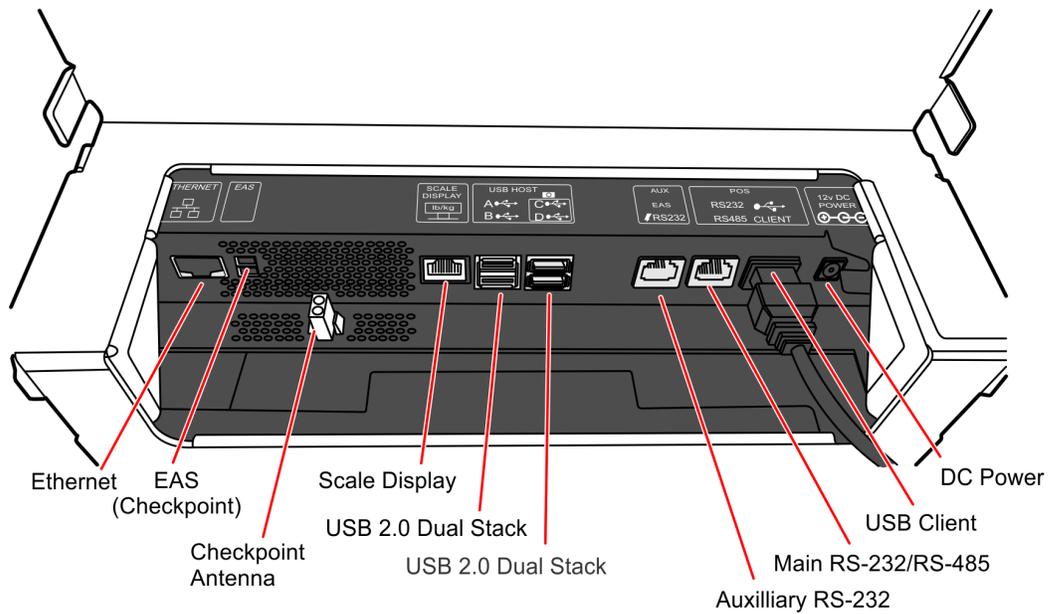

Installing the Scanner/Scale (7879e)

To install the NCR RealScan™ 79 Bi-Optic Imager Scanner/Scale (7879), follow these steps:

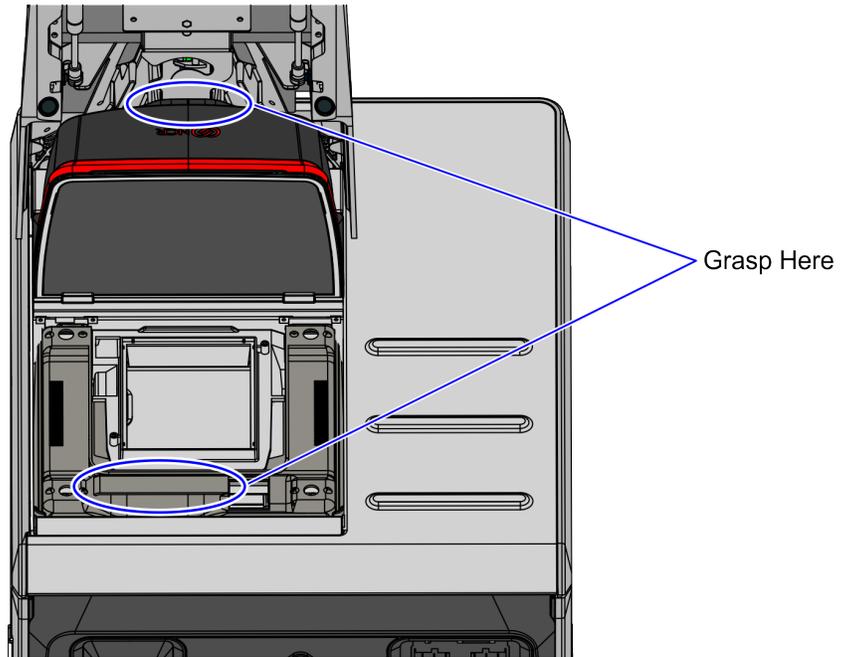

1. Connect the scanner cable to the **USB Client** port on the RealScan 79 (7879).

Note: Ensure that the SelfServ Checkout unit is turned off before connecting the USB cable.

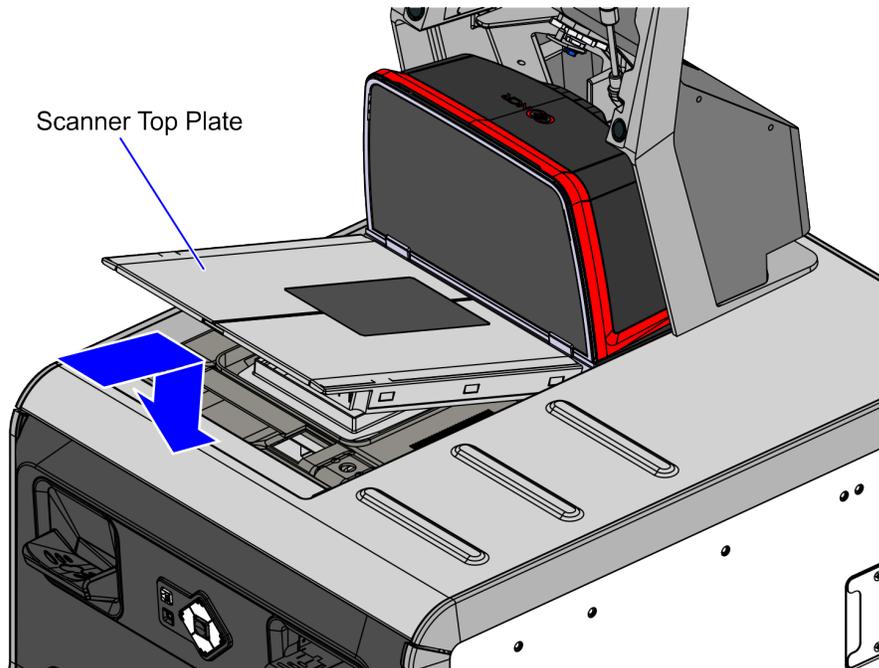

2. Place the Scanner/Scale in the Scanner bucket.

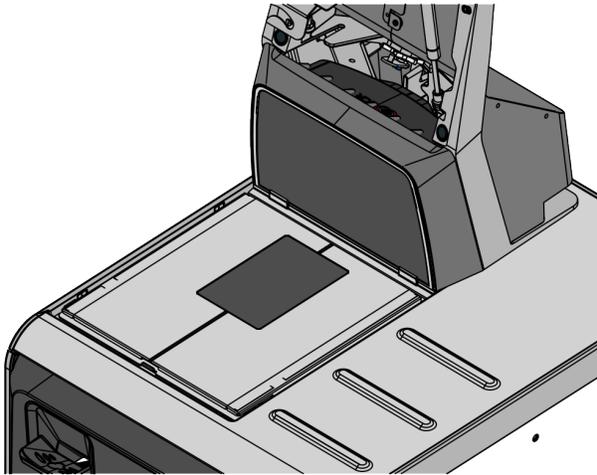

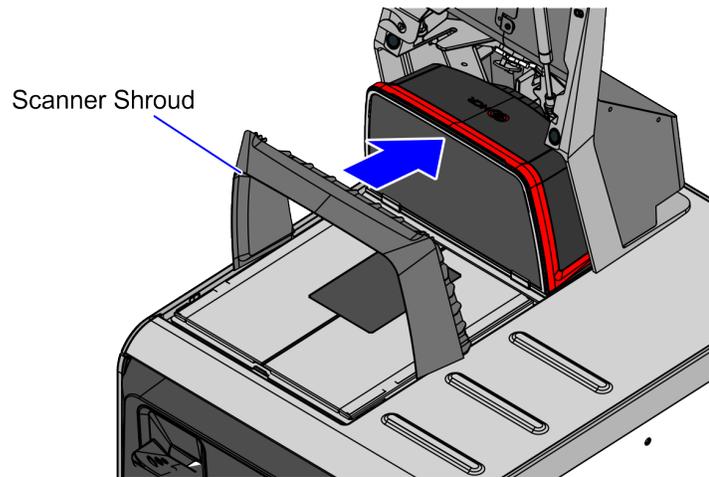

CCP-61625

3. Lower the Scanner Top Plate as shown below:

CCP-61695

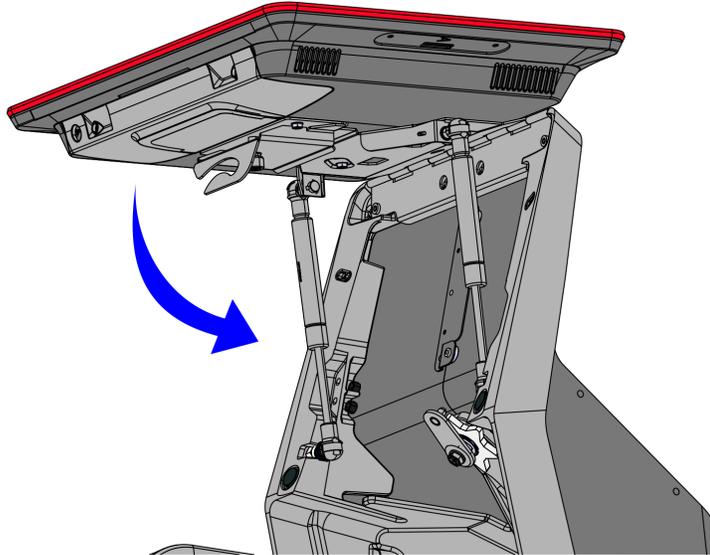

4. Insert the Scanner Shroud over the top of the vertical scanner window.

Closing the Tower Frame

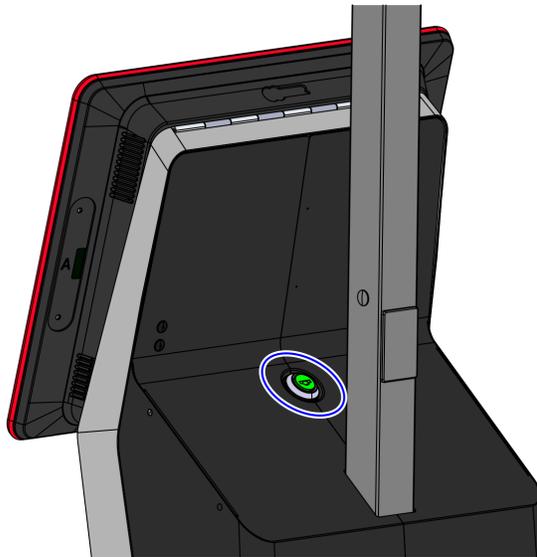

To close the Tower Frame, follow these steps:

1. Lower the Terminal Display to the Tower Frame.

CCP-78942

2. Lock the Tower Frame from the back panels using a key.

CCP-61622
