Installation Procedures

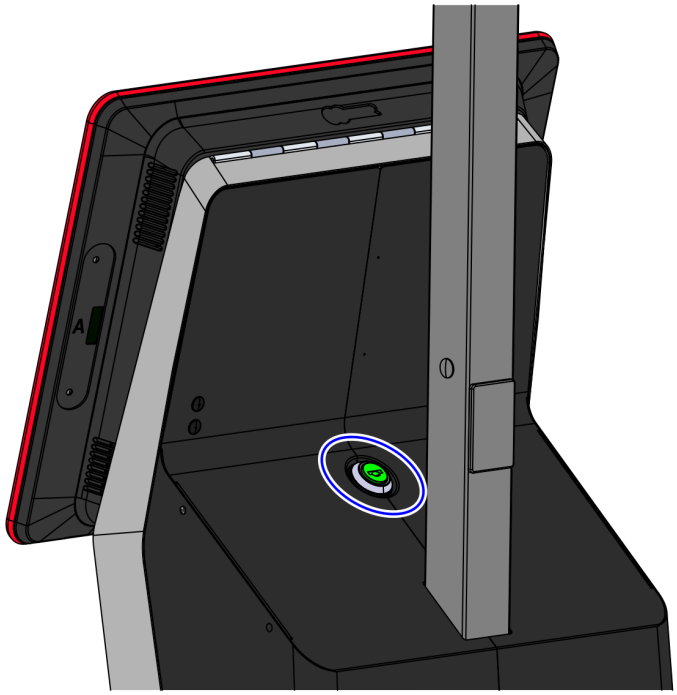
Installing the 7360-K130 Spill Protection Gasket and Drip Channel (7879 Scanner) involves the following procedures:

- *Installing Spill Protection Gasket* below.
- *Installing Drip Channel* on page 6.

Installing Spill Protection Gasket

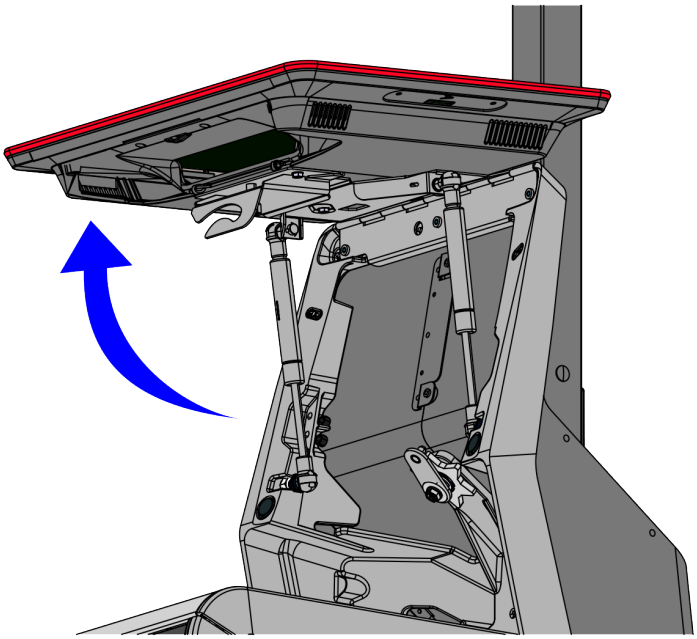
To install the Spill Protection Gasket, follow these steps:

1. Turn off the SelfServ Checkout software and hardware systems.
2. Unlock the Tower Frame from the back panels using a key.



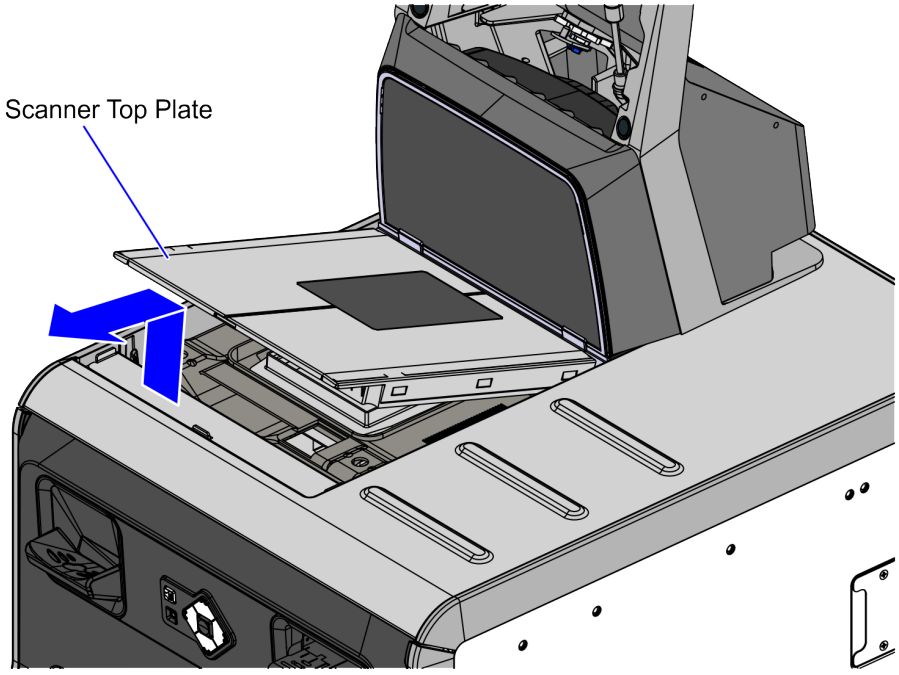
CCP-61622

3. Lift the Terminal Display from Tower Frame.



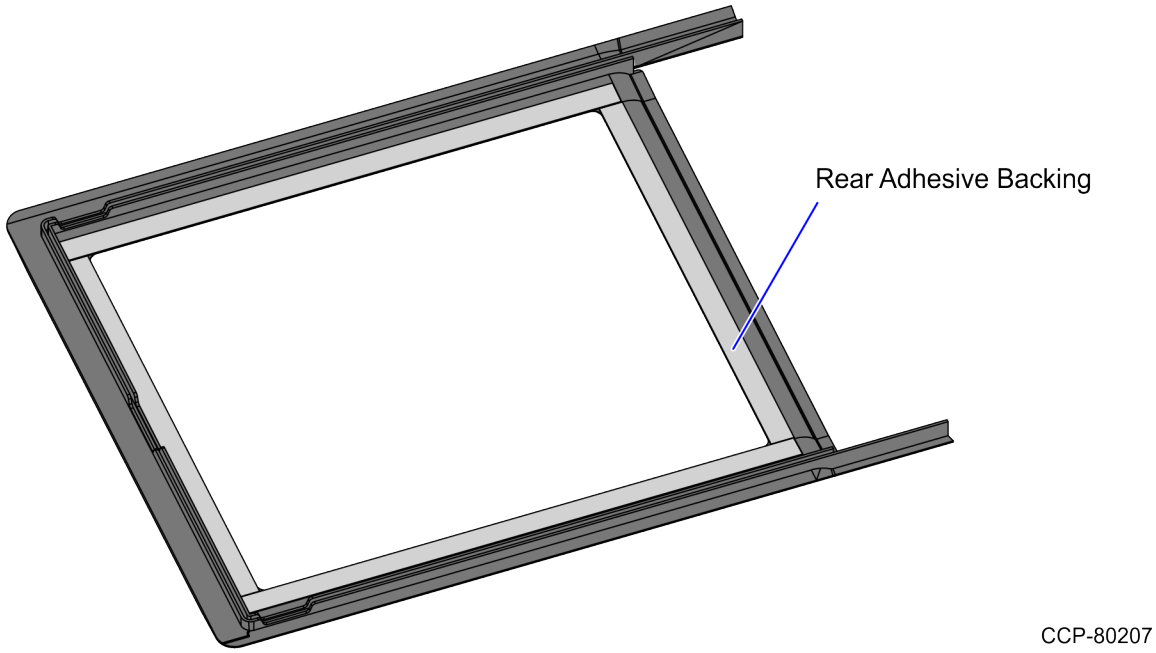
CCP-79659

4. Remove the Scanner Top Plate from the Scanner.

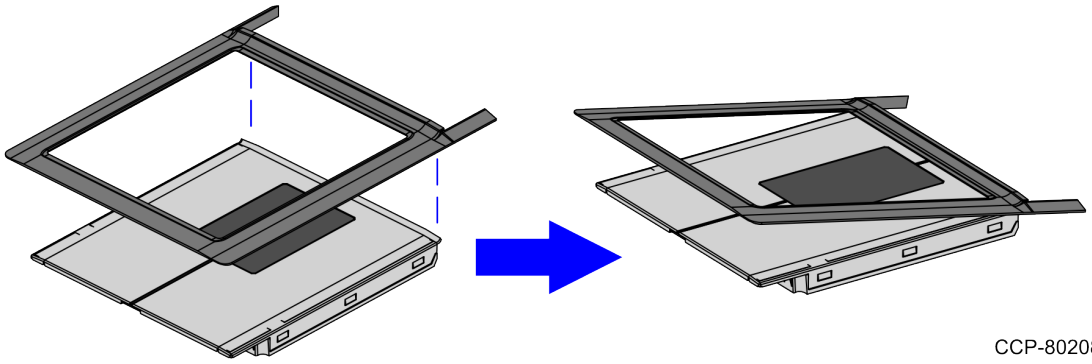


CCP-80224

5. From the back of the Spill Protection Gasket, remove only the rear adhesive backing, as shown in the image below.

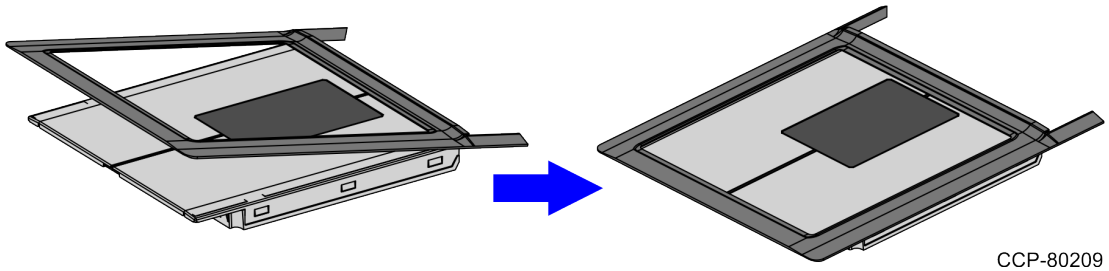


6. Align and attach the rear edge of the Scanner Top Plate to the inner bottom wall of the Spill Protection Gasket, as shown in the image below.



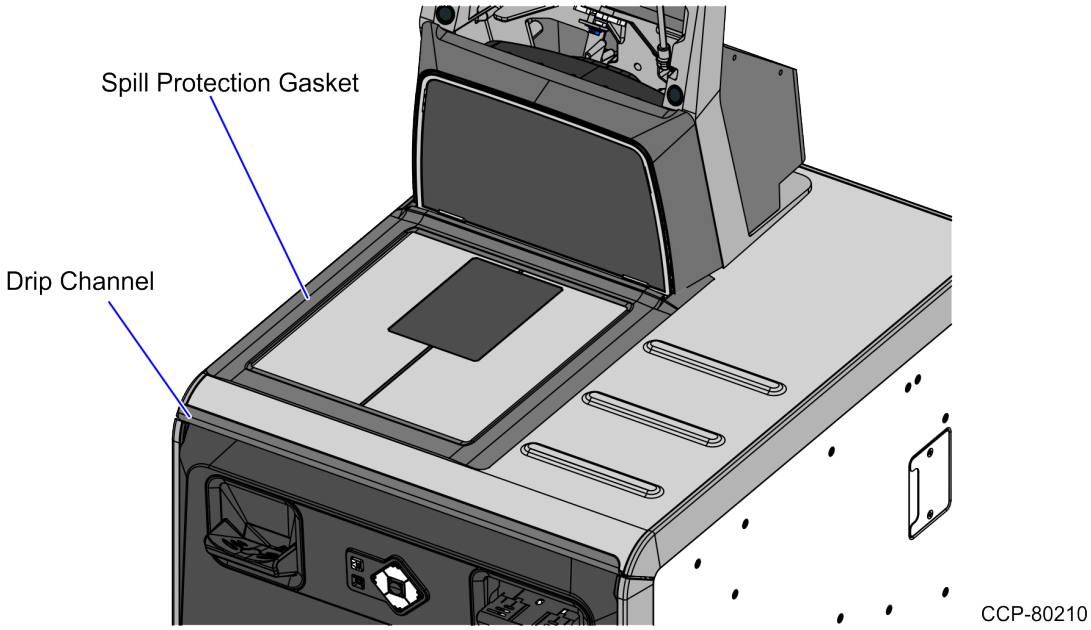
7. Remove the adhesive backing from the front and sides of the Spill Protection Gasket.

8. Do the following:
   a. Attach the sides and then the front inner bottom walls of the Spill Protection Gasket to the Scanner Top Plate.
   b. Press firmly on all sides of the attached Spill Protection Gasket. Ensure that there are no air bubbles.



CCP-80209

9. Do the following:
   a. Lower the Scanner Top Plate with the Spill Protection Gasket on the Scanner.
   b. Tuck the inner bottom walls of the Spill Protection Gasket into the gaps between the Scanner and the SelfServ Checkout Top Plate.



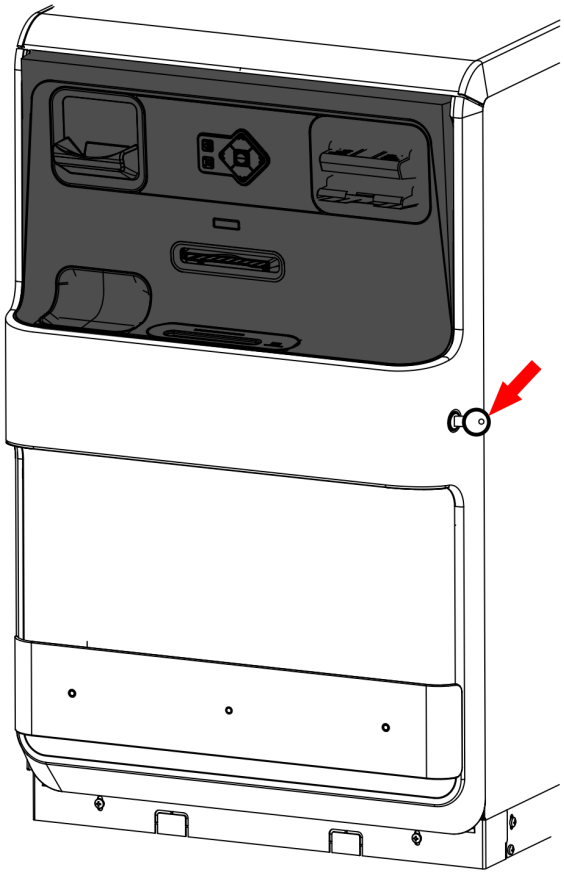
CCP-80210

To install the Drip Channel, refer to *Installing Drip Channel* on the next page.

Installing Drip Channel

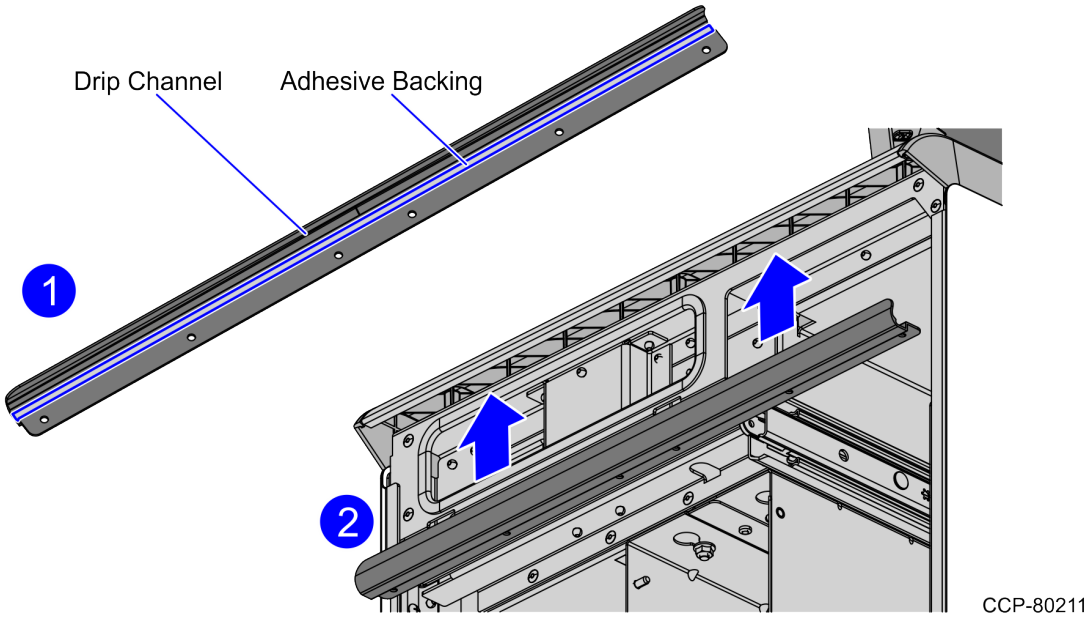
To install the Drip Channel, follow these steps:

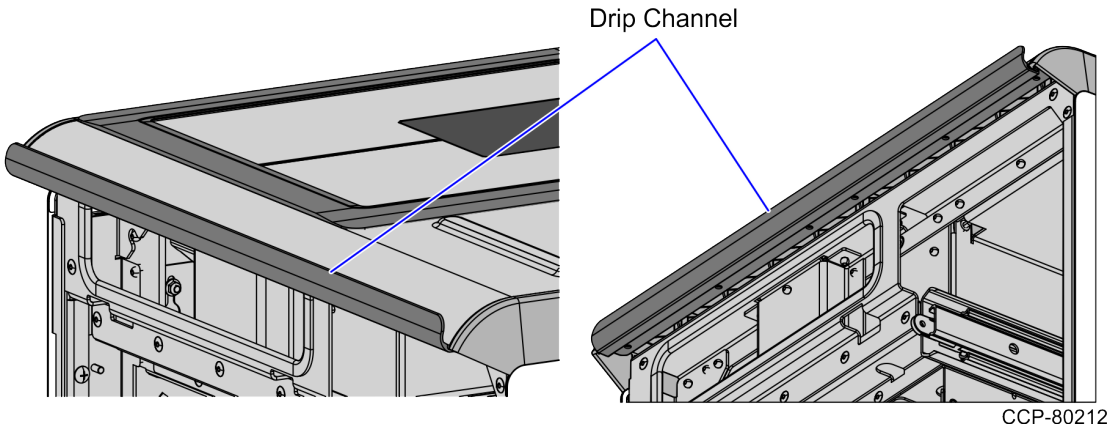
1. Open the Cosmetic Door using a key.



CCP-70906

2. Do the following:
   a. Remove the adhesive backing from the Drip Channel.
   b. Align the adhesive area of the Drip Channel with the front edge of the SelfServ Checkout Top Plate.





3. Press the Drip Channel firmly on the SelfServ Checkout Top Plate edge. Ensure that there are no air bubbles.
