Installation Procedures

Depending on the Bagwell, refer to the procedures below for instructions on how to install the 12-inch Bag Rack.

- "Bag Rack on 7360 (R6-C) Bagwell" below
-

Bag Rack on 7360 (R6-C) Bagwell

To install the 12-inch Bag Rack on the Scale Tray of a 7360 (R6-C) Bagwell, follow these steps:

> **Note**
>
> Bag racks can be installed facing forward or to the side. This procedure shows installing the bag rack facing forward only as an example.

1. Clean the Bagwell Scale Tray with alcohol or non-residue cleaner to remove any dust or dirt and then identify the specific location where to mount the bag racks on the Scale Tray.

2. Remove the Tapping Inserts from the Scale Tray as indicated.

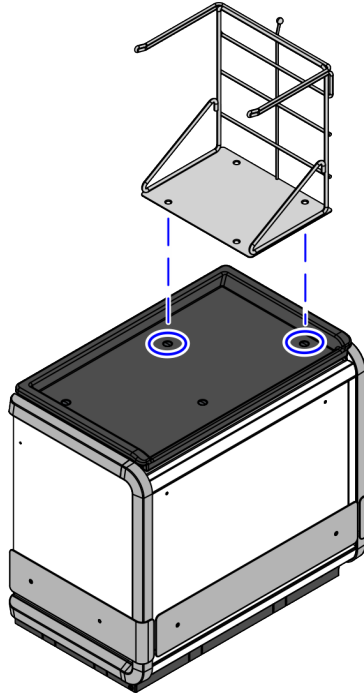

CCP-83172

> 📝 **Note**
>
> Ensure that the Scale Tray is placed on its correct orientation by placing the side with the raised edge along the core wall. This prevents items on the tray from making contact with the core wall which can affect the reported weight.

3. Secure the Bag Rack to the Scale Tray using two (2) screws.

> **Note**
>
> Attach the screws on opposite corners.

CCP-83171

Bag Rack on 7371 Bagwell

To install the 12-inch Bag Rack on the Scale Tray of a 7371 Bagwell, follow these steps:

> **📝 Note**
>
> Bag racks can be installed facing forward or to the side. This procedure shows installing the bag rack facing forward only as an example.
