Input Shelf Protector

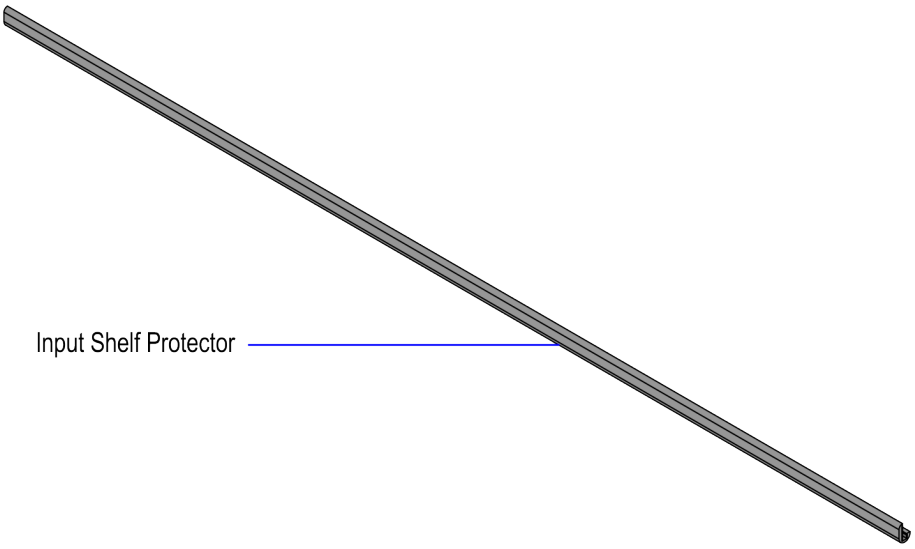
This publication provides procedures for installing rubber bumpers on the sharp edges of the Input Shelf. These rubber bumpers protect customers from injuries that the edges may cause.

Kit Contents



Part Number	Description
497-0524681	7707-K475 Input Shelf Protector
497-0530059	Protector - Input Shelf Bracket

* Items marked with an asterisk are not called out on the image.

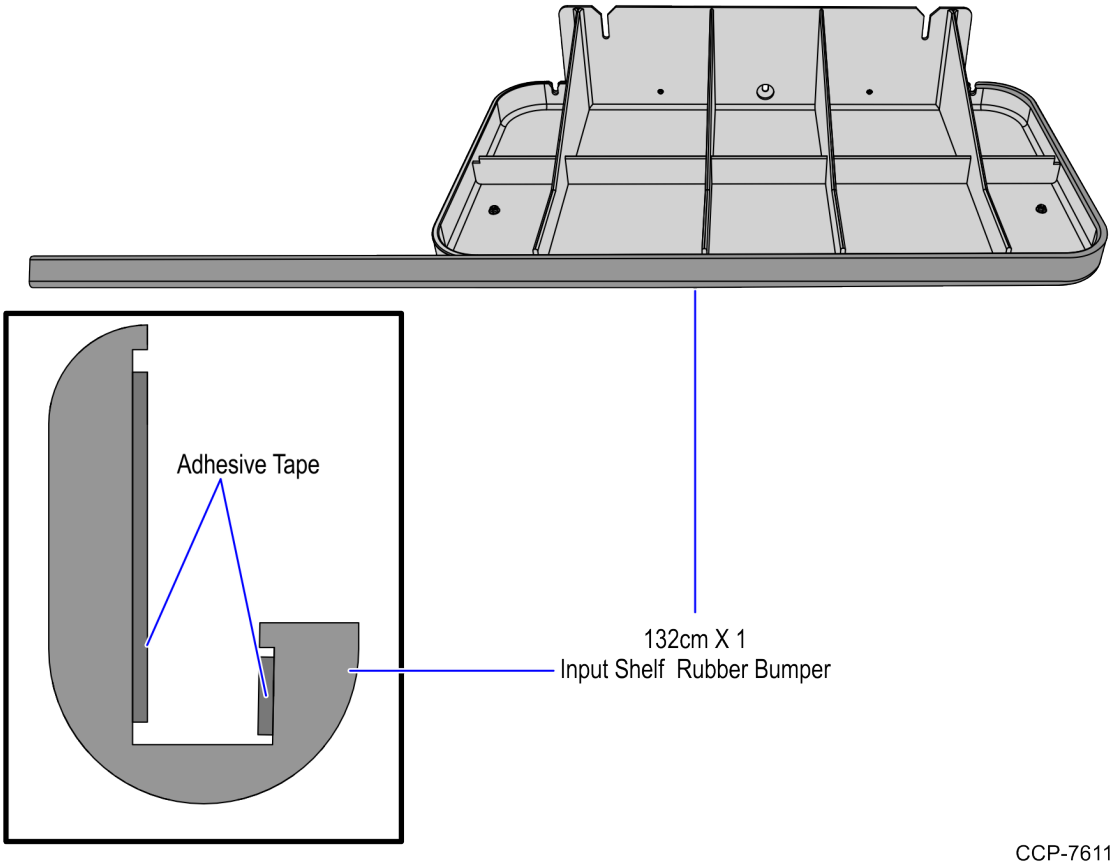
Use and disclose solely pursuant to company instructions.

Installation Procedure

To install the rubber bumper on the Input Shelf, follow these steps:

1. Peel off the adhesive tape cover from the end portion of the rubber bumper. The adhesive tape is used to ensure that the rubber bumper is securely attached to the edge of the Input Shelf.
2. To prevent the rubber from sticking on other areas of the Input Shelf, do not completely remove the adhesive tape cover.
3. Slowly slide the rubber bumper along the bottom edge of the Input Shelf corner, as shown in the image below.



4. Continue to alternately peel adhesive tape cover and slide the rubber bumper until the bottom edge of the Input Shelf is completely covered with the rubber bumper.

Confidential and proprietary information of NCR Voyix.

Use and disclose solely pursuant to company instructions.

5. Press the rubber bumper to ensure that it is firmly glued to the bottom edge of the Input Shelf.
