Installation Procedures

Replacing the Key Lock of the R6-Japan involves the following procedures:

- "**Removing Key Lock**" on the next page.
- "**Installing Key Lock**" on page 11.

Removing Key Lock

To remove the Key Lock from the NCR Voyix SelfServ™ Checkout (7707) unit, follow these steps:

1. Unlock and open the R6-Japan Cabinet Door, using a key.

CCP-72794

2. Remove four (4) nuts securing the Key Lock bracket assembly on the door frame, as shown in the image below.

> 📑 **Note**
> Set aside the screws for installation.

CCP-76193

3. Do the following:

   a. Remove the washer and bolt securing the pawl to the Key Lock, as shown in the image below.

   > **Note**
   > Set aside the washer, bolt and pawl for installation.

b. Remove the nut securing the Key Lock to the bracket, as shown in the image below.

> **Note**
> Set aside the bracket for installation.

CCP-76194

4. To install a new Key Lock, refer to "**Installing Key Lock**" on the next page.

Installing Key Lock

To install a new Key Lock on the NCR Voyix SelfServ™ Checkout (7707) unit involves the following procedures:

1. Remove the existing Key Lock, if necessary. For more information, refer to "**Removing Key Lock**" on page 7.

2. Do the following:
   a. Position the Key Lock to its "Normally Close" position. Ensure that the depressed cavity of the Key Lock is on the right side, as shown in the image below.

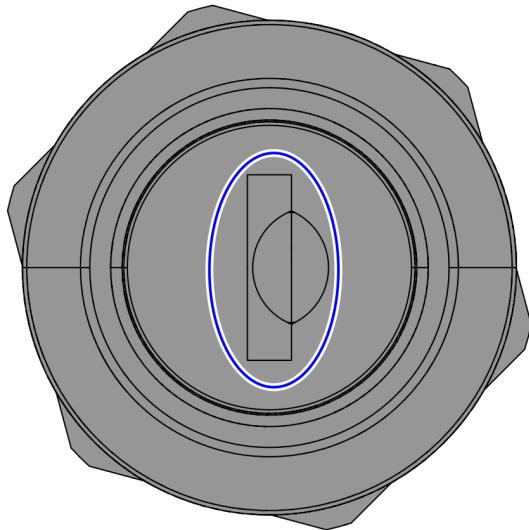

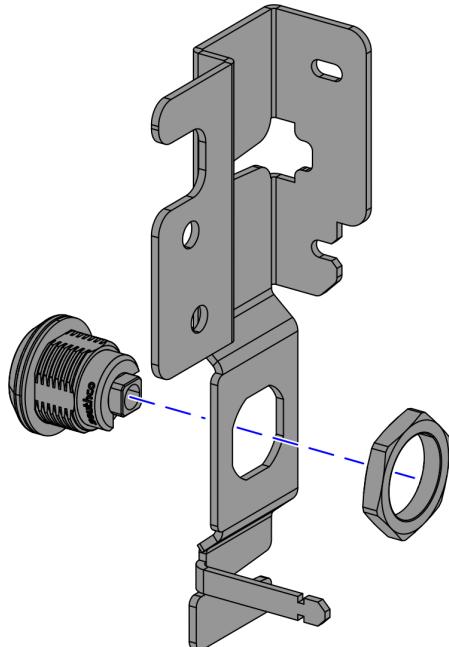

CCP-76198

b. Insert the Key Lock into the bracket and then secure using a nut, as shown in the image below.

> **Note**
> Reuse the existing bracket set aside during removal of Key Lock.

CCP-76194

c. Secure the pawl on the Key Lock using a washer and bolt, as shown in the image below.
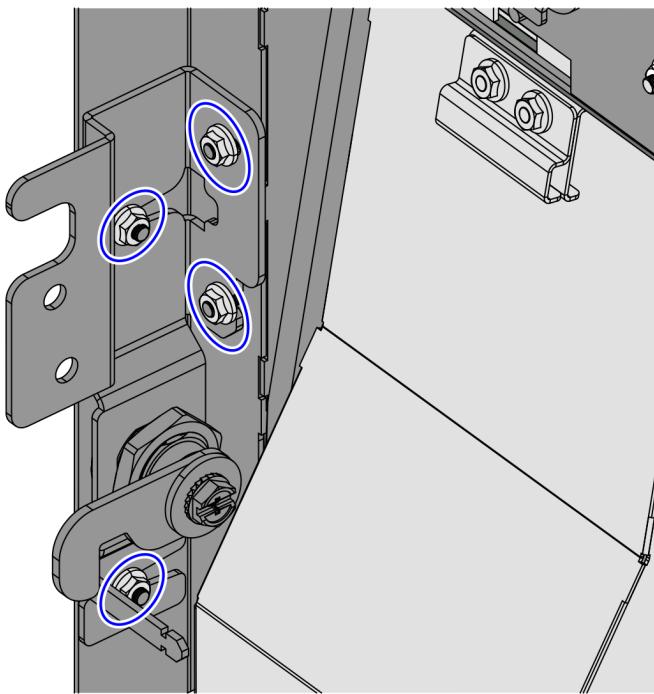

> **Note**
> Reuse the existing pawl, washer and bolt set aside during removal of Key Lock.
