Installation Procedures

Caution: Static Electricity Discharge may permanently damage your system. Discharge any static electricity build up in your body by touching your computer's case for a few seconds. Avoid any contact with internal parts and handle cards only by their external edges.

1. Turn Off the power to the terminal and disconnect any peripheral devices.

2. Unplug the terminal's power cord.

3. 2. Remove the Front Cover.

   a. Turn the Keylock to the unlocked position.

   b. Pull the top edge of the Front Cover away from the chassis and remove the cover.

30629
4. Remove the Top Cover.

   a. Loosen the thumbscrews (2) that secure the Top Cover.
