USB-A to 2x RJ45 Serial Hub

This kit contains a Serial Hub that connects to the NCR PX10/PX15 POS (7746) via USB port. It provides two additional RJ45 Serial ports.

Kit Contents

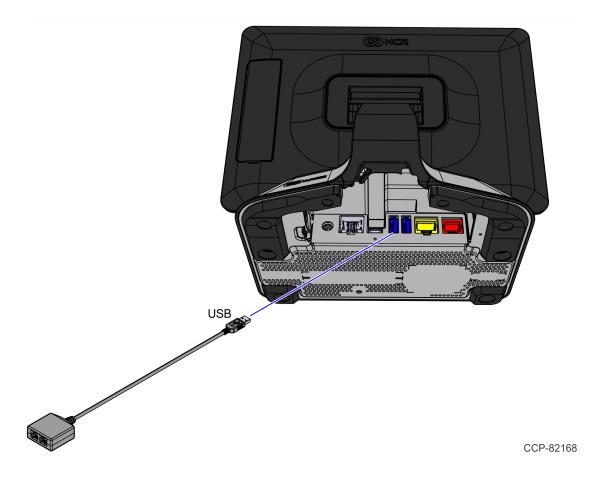

CCP-82167

Part Number	Description
497-0525219	USB-A to 2x RJ45 Serial Hub

Installation Procedure

To install the Serial Hub and corresponding driver, follow these steps:

1. Connect the USB connector of the Serial Hub to any available USB port on the PX terminal.

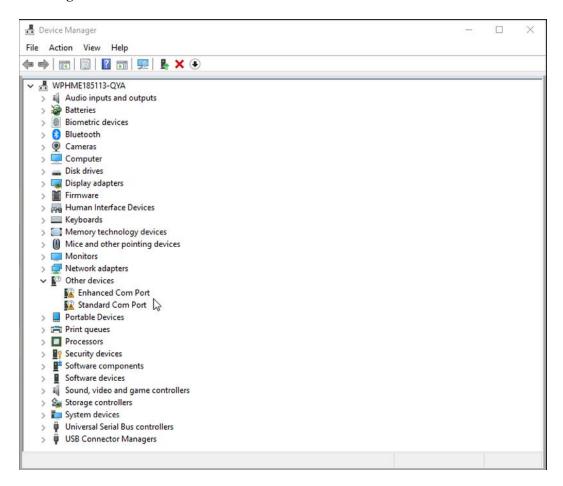

- 2. Install the drivers by doing the following:
 - a. Download the Silabs Driver from the following location: https://www5.ncr.com/support/support_drivers_
 patches.asp?Class=External/Silabs\Windows\Driver
 - b. Unzip the file to a preferred folder in the PX terminal.

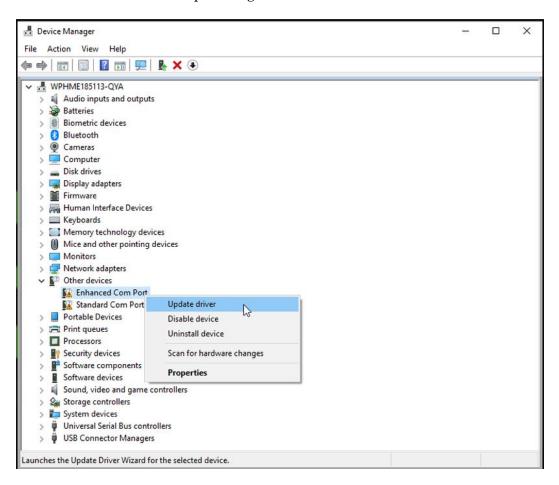

c. Go to Device Manager >> Other devices.

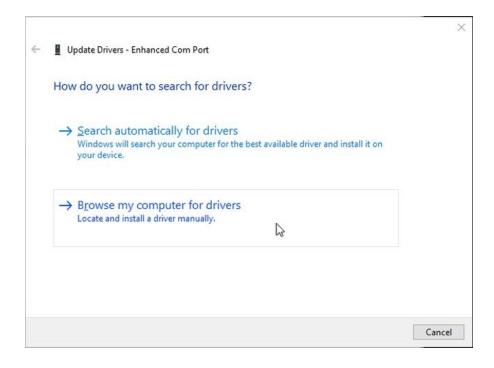

Note: If the device is already plugged into the unit, the device will appear with a warning icon .

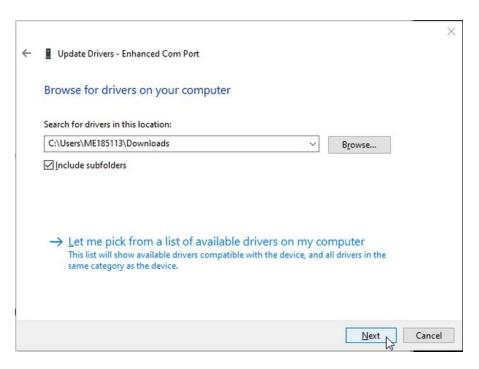

d. From the Other devices option, right-click Enhanced Com Port.

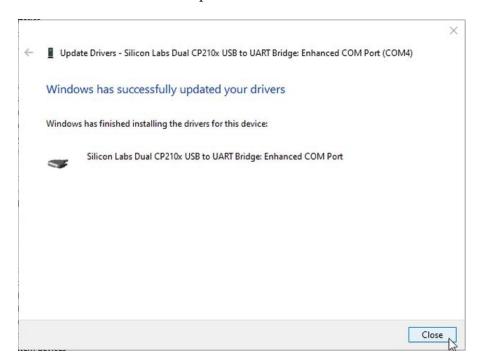

e. Select **Update driver**. The *Update Drivers* window is displayed.

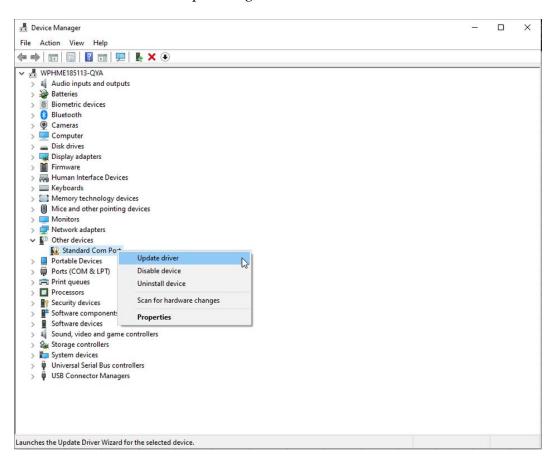

- f. Select **Browse my computer for drivers** to navigate to the unzipped folder.
- g. Select the **Next** button. The installation will take several minutes.

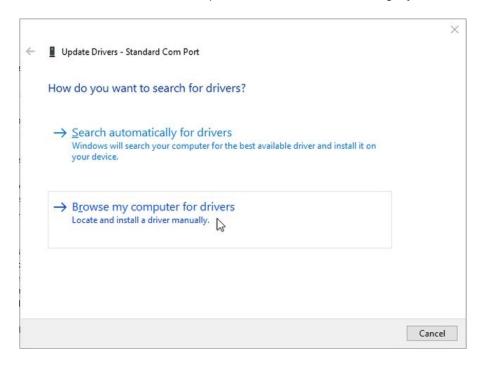

h. After the installation is completed, select the **Close** button.

i. From the Other devices option, right-click Standard Com Port.

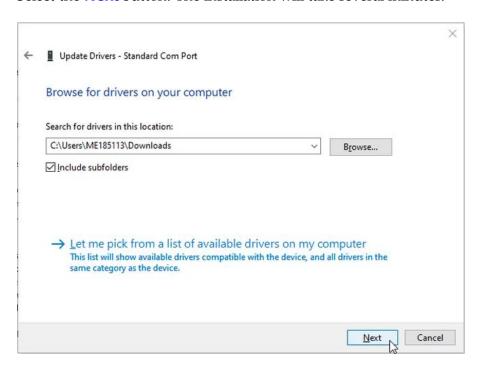

j. Select **Update driver**. The *Update Drivers* window is displayed.

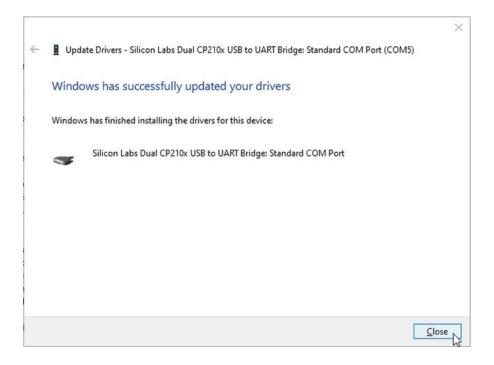

k. Select **Browse my computer for drivers** to navigate to the unzipped folder.

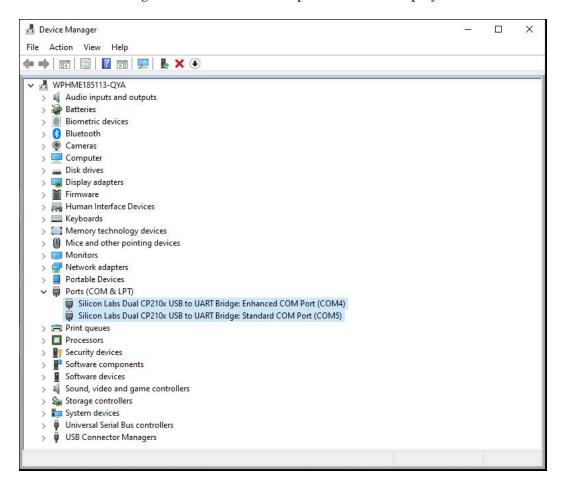

l. Select the **Next** button. The installation will take several minutes.

m. After the installation is completed, select the **Close** button.

In the Device Manager window, the usable ports are now displayed under Ports.

3. From the *Device Manager* window, select the **Scan for hardware changes** button to check that all connected hardware peripherals have updated drivers. Ensure that all drivers do not appear with a warning icon ⁴ to indicate that there are no driver issues.
