Installation Procedure

> ⚠️ **Warning**
>
> Disconnect the AC power cord from the AC outlet and wait 30 seconds before servicing the terminal.

1. Lay the Display face down on a flat surface.

   Always use a soft material (cloth, foam) to protect the display screen when placing the terminal face down.

2. Remove the Cable Cover.

   a. Remove the two (2) screws that secure the Cable Cover to the Back Cover.
   CCP-77013

   b. Rotate and unhook the Cable Cover from the Back Cover.

6. Lift the bottom of the Logo Badge to unsnap it from Port D of the display housing.

CCP-76925

7. Route the USB-C Cable through the Bracket as shown.

   Do not hook the Cable on the Cable Management Hooks.

CCP-77877

8. Connect the Cable to the XL7 Customer Display. Tighten the thumbscrew.

   Avoid overtightening the thumbscrew by turning it only until the silver knurled portion touches the black plastic overmold. Overtightening the thumbscrew damages the connector on the board.

9. Install the Bracket on the back of the XL7 Customer Display (4 screws).

CCP-77875

10. Install the Customer Display and Bracket assembly on the CX7 Display (2 screws).

CCP-77881

11. Connect the USB-C Cable to the Motherboard and route the Cable through the channel as shown.

When routing the Cable through the channel, start from the motherboard connector end of the Cable so that the excess cable is at the customer display end of the cable.
